SUMMARY

Frontend-focused Full-Stack Developer with experience in finance/portfolio management products, specializing in React, TypeScript, JavaScript, React Native, and Python. Strong in UI/UX implementation with Figma, responsive design, creative yet professional animations, REST API integration, and web performance optimization, with hands-on leadership managing interns and coordinating with outsourced backend teams. Uses AI development tools to accelerate delivery, improve code quality, and ship scalable, user-centric interfaces.

SKILLS

Languages	HTML | JavaScript | Typescript | CSS | Python | C++ | Web Development | App Development
Tools/Frameworks	React | React Native | Django | Rest API | Next.js | Spring Boot | Node.js
Databases	MongoDB | PostgreSQL
Other Skills	Leadership | Problem Solving | Critical Thinking | Communication | Networking | Collaboration

WORK EXPERIENCE

Lead Frontend Developer
Apr 2025 - Apr2026

Investza (Mumbai)

- I build the app and websites so they look nice, work smoothly, and are easy for people to use.
- Frontend engineering (React, TypeScript, JavaScript) by building and shipping 3 responsive, production websites using Vite, Git, and reusable UI components, so clients get fast, professional interfaces that are easy to navigate.
- REST API integration and data-driven UI by consuming mutual-fund/portfolio endpoints, wiring calculations into the frontend, and coordinating payload/edge-case fixes with outsourced backend developers, so users see accurate finance data and consistent results across screens.
- Team collaboration and delivery ownership by managing 4 interns, translating Figma UI/UX into clean implementations with polished animations, and contributing to the Investza app (React Native + supporting backend logic), so releases stay on-track and the product remains consistent across web and mobile.

Management Intern (Remote)
Aug 2023 - Feb 2024

Juggie's Coffer(Delhi)

- I helped the brand look good online and interact with customers.
- Social media management and content marketing by planning posts, creating graphics/content, and running day-to-day community/client interactions, so the brand stayed active, consistent, and engaging across channels.
- Event marketing and operations coordination by organizing pop-up/marketing events, aligning with the owner on timelines, and managing multiple deliverables under tight deadlines, so campaigns executed smoothly and improved in-person brand visibility.
- SEO and website collaboration by supporting on-page SEO work (keywords, metadata, content alignment), sharing design/UX ideas, and communicating requirements with outsourced website developers, so the website improved in discoverability and matched the desired brand image.

EDUCATION

B.Tech in Electronics and Telecommunication
June 2021 - Mar 2025

Vidyalankar Institute of Technology, Mumbai, India

PROJECTS

Smart Mirror with Raspberry Pi

- Built an interactive Smart Mirror with Raspberry Pi, integrating voice assistant for real-time date, news, and custom Google search features
- Implemented facial recognition to automatically log attendance and display personalized schedules upon face scan

Twitter Data Pipeline using Apache Airflow

- Designed and deployed an end-to-end ETL pipeline using Apache Airflow (DAG orchestration, scheduling, task dependencies)
- Integrated the Twitter API for data extraction and built Python transformations for data cleansing, validation, and processing to produce analysis-ready datasets

Brick Breaker game (Java)

- Developed a Java-based Brick Breaker game using OOP principles, a real-time game loop, and event-driven input handling
- Implemented collision detection, scoring, and difficulty progression to deliver smooth gameplay and scalable level logic

POSITION OF RESPOSIBILITY

Institutes Innovation Council (IIC), VIT | Events Head
May 2023 - Nov 2023

- Serving as the events head, looking after organization of various events and talk/podcasts, ensuring smooth running of the event on a technical basis.
- Helping out with organization of speakers for lecture events and networking with various bodies.
